Skills

Languages: CET-6 English; comfortable with technical docs and async written communication.

Engineering: React, Next.js, TypeScript; performance tuning and design-system delivery.

Collaboration: works across product, design, and backend to ship iteratively.

Proficient in: React / Next.js · TypeScript · Performance · Design systems · Accessibility · Cross-functional delivery

Honors & Certificates

- Provincial first prize, Mathematical Modeling Contest (demo)
- CET-6 English certificate
- Outstanding undergraduate thesis

· Open-source contributor (demo)

Summary

6 years in front-end engineering—Web performance, design systems, and measurable delivery. Proactive, structured, and delivery-focused. Cares about code quality and user experience under fast iteration. Calm collaborator seeking teams that value craft and measurable outcomes.

Fictional demo profile for product showcase only—not a real person.
