Zhongqi Hou

Overseas Technical Support Engineer (Semiconductor Equipment / Robotics · Hybrid) | Shenzhen
English-fluent | UK visa (~2 years) | Overseas travel OK (~3×/year, ~1 month) | +86 178-1676-9251 | zhongqi_hou@foxmail.com

Photo

SUMMARY

• Europe field support (Spain / Netherlands / France / Germany) + remote overseas customers; clear spoken English for training and troubleshooting.
• Customer–R&D bridge: drove key-account wheel-alignment HW/SW requirements for ~4 months through to product delivery.
• Built AI knowledge-base assistant (Cursor, 24/7 on company servers) and ticket/dashboard platform for after-sales efficiency across time zones.
• Automation degree + smart-car lab (PCB, embedded C, sensors)—fast ramp-up on electromechanical equipment.

EXPERIENCE

SmartSafe (Yijian Intelligent) — Overseas Technical Support / Service Engineer Nov 2025 – Present

Automotive aftermarket test & maintenance equipment | Pre-sales training, after-sales, customer–R&D coordination

• Multi-line support: wheel alignment, ADAS calibration, A/C refrigerant exchange, injector cleaning, ATF exchange, EV battery pack charge/discharge & balancing, diagnostic tablets.
• On-site in ES/NL/FR/DE for fault handling, product training, and dealer/end-user enablement.
• Led ~4-month key-account wheel-alignment HW/SW alignment between customer and R&D until delivery landed.
• Built department AI knowledge base (FAQ + docs, chat Q&A) with Cursor; 24/7 server deploy for sales/service; built ticket platform with media upload + issue dashboard.

ELEGOO (Shenzhen Zhinenpai Technology) — Overseas Technical Support Engineer Aug 2025 – Oct 2025

3D printing export | Remote EU/US technical support

• Independent EU/US technical inquiry handling; personal knowledge base + AI agent for faster response; structured feedback to product/engineering.

EDUCATION

Zhejiang University of Science and Technology — B.E. Automation | GPA 3.04 (Top 15%) Sep 2021 – Jun 2025

• Intelligent Vehicle Lab (3 yrs): Infineon TC264/TC377 GPS+IMU vehicle; Provincial 2nd Prize, National Intelligent Vehicle Competition (4th in Zhejiang).
• STM32 / sensor drivers / UART·SPI / FreeRTOS basics; PCB reading, soldering, multimeter, embedded C.

SKILLS & AWARDS

Languages: CET-6 English — overseas calls, on-site training, technical email.

Support: multi-product diagnosis, pre-sales training, requirement translation, customer ↔ R&D ↔ sales coordination.

Technical: automation/embedded base; Python/Matlab; Cursor/AI tooling; knowledge-base & ticket workflows. Prefer Shenzhen base.

Awards: Provincial 2nd Prize, National Intelligent Vehicle Competition (2023); Campus 1st, Zhejiang College English Contest (2022); National 3rd, Puyi English Writing (2023); scholarships (7/92).

PROFILE

Strong communicator and fast learner; turns field issues into actionable R&D inputs and customer-ready solutions. Aiming to deepen overseas technical support in semiconductor equipment or robotics, then grow toward overseas sales / hybrid roles.
